Response to OA of 03/23/05

## Remarks

In the present response, two claims (2, 3) are withdrawn; one claim (7) is amended; and eight claims (8-15) are newly added. No new matter is added.

Claims 1 and 4-15 are presented for examination.

### I. Restriction

Applicant affirms election of species 3, claims 1 and 4-7. Claims 2 and 3 are withdrawn.

### II. Double Patenting

Claim 7 is rejected under 35 USC 101 as claiming the same invention as that of claim 1 of prior USPN 6,802,586. Applicant respectfully traverses.

Claim 7 is amended to recite limitations not recited in claim 1 of USPN 6,802,586. Applicant respectfully asks the Examiner to withdraw this rejection.

### III. Claim Rejections: 35 USC § 102

Claims 1 and 4 – 7 are rejected under 35 U.S.C. §102(b) as being anticipated by “1.2 GB Firmware Utility” developed by Apple Computer, Inc (hereafter, Apple).

Applicant respectfully traverses.

A proper rejection of a claim under 35 U.S.C. §102 requires that a single prior art reference disclose each element of the claim. See MPEP § 2131, also, *W.L. Gore & Assoc., Inc. v. Garlock, Inc.*, 721 F.2d 1540, 220 U.S.P.Q. 303, 313 (Fed. Cir. 1983). Since Apple neither teaches nor suggests each element in the rejected claims, these claims are allowable over Apple.

Claim 1 recites numerous limitations that are not taught or suggested in Apple. By way of example, claim 1 recites a **consumable component**. Apple does not teach or suggest a **consumable component**. Instead, Apple is directed to a floppy disk.

According to MPEP § 2111, the terms in a claim must be given their plain meaning (i.e., the ordinary and customary meaning given to the term by those of ordinary

skill in the art). Merriam-Webster is an online dictionary ([www.merriam-webster.com](http://www.merriam-webster.com)) that defines consumable as follows:

**consumable**  
Function: *adjective*  
: capable of being consumed

A floppy disk is not capable of being consumed. For at least this reason, claim 1 is allowable over Apple.

A dependent claim inherits the limitations of a base claim. Thus, for at least the reasons given in connection with claim 1, the dependent claims are allowable over Apple.

#### IV. New Claims

New claims 8 to 15 recite numerous limitations that are not taught or suggested in the art of record. By way of example, claim 11 recites "a memory storing readable program code having a downloadable upgrade version of program code for a computerized apparatus that is in communication with the print cartridge."
